OBJECTIVE

Software engineer with experience in web and mobile application development, as well as knowledge of offensive cybersecurity. Seeking opportunities in the development of scalable and well-structured applications, using software engineering best practices, modern technologies, and secure solutions.

PROFESSIONAL EXPERIENCE

Compass UOL Trainee, Full Stack

May 2024 — Jan 2025

Worked on the development and maintenance of systems focused on the management of telecommunications applications, contributing to the implementation of new features in microservices, creation of user reports, interface adaptations, and execution of production releases. This work resulted in increased application stability and optimization of the feature delivery workflow.

Stack: JavaScript, TypeScript, NestJS, Express, Angular, Ionic, MongoDB, Redis, Azure DevOps.

Compass UOL Backend Intern

May 2023 — Oct 2023

Worked in an agile environment using Scrum, contributing to the development and maintenance of REST APIs with Node.js, TypeScript, Express, and MongoDB. Collaborated on the implementation of authentication, security, documentation, and endpoints, as well as the creation of unit and integration tests. Also utilized AWS services for application deployment and maintenance in a production environment.

Stack: TypeScript, Express, MongoDB, Docker, AWS.

EDUCATION

Postgraduate Degree in Cybersecurity - UFC Pici Campus

2026 — Present

Cryptography, Network Security, Operating System Security, Infrastructure.

Bachelor's Degree in Information Systems - IFCE Cedro Campus

2021 — 2026

Data Structures, Software Engineering, Web Programming, Project Management.

Technical High School in Information Technology - IFCE Cedro Campus

2017 — 2020

Programming Logic, Databases, Object-Oriented Programming.

SKILLS

Programming Languages

JavaScript, TypeScript, C#, C, Go, Java, Python.

Web Development

NodeJS, Express, NestJS, React, NextJS, Angular, VueJS, NuxtJS, HTML, CSS, Tailwind, .NET, Entity Framework, Django, Flask, Spring Boot.

Mobile Development

React Native, Expo, Ionic.

Cybersecurity

Pentesting, Cryptography, Data Protection, Cryptographic Hashing, Offensive and Defensive Security, System Hardening.

Databases

MySQL, SQL Server, PostgreSQL, MongoDB, Redis.

Miscellaneous

Docker, AWS, Google Cloud, Azure DevOps, Ollama, Godot.
